Engage. Educate. Inspire.

Robotics programs are steadily being adopted into schools across the nation as a hands-on method of teaching complex STREAM concepts, innovation and problem-solving skills, which are in increasing demand today.

For nearly a decade, Robot City has been a premier after-school and summer camp enrichment provider that offers exciting curriculum designed to spark students' interest and knowledge in STREAM-related fields through robotics projects. Our philosophy is to engage, educate and inspire young minds!

OPEN POSITIONS: Summer Robotics Camp Lead Instructor and Assistant Instructor

Robot City West is seeking multiple summer camp instructors who are passionate about working with children and teaching STREAM-related curriculum. Ideal candidates will be a master of engaging the interest and attention of children, organized and skilled communicators. Experience teaching elementary school students preferred. Speech, performance and theater skills a plus. Summer camps involve building robots, DIY robotics projects, and programmable robots that each student completes with the help of the assigned instructor. Experience with robotics helpful but not required. Prepared curriculum and field challenges provided, and instructors are welcome to customize content as they prefer.
